ABOUT ME

I am passionate about both web development and technical support, with experience in designing and developing visually appealing, user-friendly websites built on clean and efficient code. Alongside my development skills, I have a strong background in troubleshooting and resolving computer hardware and software issues, ensuring smooth and reliable system performance. Detail-oriented, hardworking, and always eager to learn, I thrive in environments where I can apply my skills in both development and IT support to drive results and contribute to team success.
