WORK EXPERIENCE

KBLINK.PH
2020 – 2023

Web Developer

During my 240-hour On-the-Job Training as a web developer, we used Next.js to create a website for selling products.

EDUCATION

Emilio Aguinaldo College Cavite
2020 - 2025

Bachelor of Science in Computer Science

Learned about the fundamentals of Object-Oriented Programming (OOP), algorithms, and programming. We also had training in CISCO networking, which helped us understand computer networks and how data communication works.

National College of Science and TechnologyInstitute of Industrial Research and Training
2018-2020

Technical Vocational Livelihood

Learned about the fundamentals of networking, including how data is transmitted and managed across systems. I also gained hands-on experience in troubleshooting and hardware repair, which helped me understand how to diagnose and fix technical issues.

SKILLS

Teamwork

Communication

Hardworking

Quick to Adapt

Problem Solving

TOOLS
